To,

Team Mychatri

Such a great beginning and the inspiration is excellent and it is the need of globally. We appreciate the thought, move toward and the following accomplishment done by team Mychatri as a friend- truth-seeker- guide to our students. The seminar with the students was highly appreciated by everyone and we would like to have more of them in times to come.

We are very hopeful that Mychatri would offer a much awaited platform to the students that no one else could provide so far, starting from knowledge to skills and then finally connect with the industries... What else could these students expect.

I Shall be great full to Mychatri for this kind support.

Thanks,

RASHAD ILYAS

(DIRECTOR T & P CELL)
